ALBERTA

Clarence Davis is expected home the latter part of this week.

Born to Mr. and Mrs. D. McClement on Thursday, 30th, a daughter.

Mrs. Wolfe and little son from Vancouver, are here visiting her brother, Mr. Jack Wolfe.

Gordon McKay and family from Reid Hill have moved into town for the winter months.

Mrs. McQueen and Dorothy left on Monday for Vancouver where they will spend the winter.

Russell Robson who has been overseas for the past year, returned to Vulcan last Thursday.

Mrs. J. A. Naismith, who has been in the Calgary General Hospital for several weeks, returned to Vulcan last Saturday.

Skates sharpened and honed at Daines—Vulcan Shoe Hospital—by his up-to-date machinery.

Mr. and Mrs. Fred Scholey and family who have been living in Vulcan for several months past, moved to Medicine Hat on Monday.

Chris Ruthberg left on Wednesday for a trip to Norway. He is a brother of Mrs. Billy Peterson and has been in this country for several years.

Daines, the "Shoe Hospital" man, carries a stock of overshoes and heavy leather boots. See him before purchasing these.

Dr. Mecklenburg, the Calgary Optician, will be in Vulcan at the Imperial Hotel on Saturday, November 29th. See him then.

Mrs. Dr. Beddingfield and two little daughters, who have been visiting Mr. and Mrs. Buck for several days, returned to High River on Saturday.

The Rev. Hayes of Tongue Creek will occupy the pulpit of the Presbyterian Church both morning and evening services of Sunday next.

The Theatre Management will give another concert at the Theatre on Sunday evening next, for which a real fine program has been arranged. All are invited.

Mrs. McKee, who formerly ran a boarding house here, was in town on Saturday. She has been visiting in B.C. since leaving here and is now en route to Winnipeg where she will spend the winter months with her son.

Mr. and Mrs. C. D. Mitchell left on Tuesday night for the States. Mr. Mitchell will spend the winter months in Detroit and Mrs. Mitchell will visit there and in Oklahoma. They expect to be gone three months.

Through letters received from the girls who went to Portland here in September, they are all getting along splendidly (Mrs. Morton, Miss Thomas and Miss Bickford). All have obtained suitable positions and say that Portland is not a bad place to live in.

### REST WITH NATURE

The closer you follow the rules of Nature the more you will accomplish, and the longer you will live. Even Nature takes her rest during the winter months—why not you? Spend this winter on the Pacific coast, where you can enjoy summer pastimes, ride, motor, golf, in the big outdoors.

The Canadian Pacific Railway operate three through trains daily to Vancouver including the fast all-sleeping car train "Trans-Canada Limited." See the magnificent mountains in their winter garb; the open seas and green fields—all this and more await you at the Pacific Coast.

Call or write for full particulars to any agent of the Canadian Pacific Ry.

An interesting report was published in the Calgary Herald about the gas situation and the possibility of the supply of this fuel vanishing. In Calgary, householders may be deprived of this fuel, the gas to be used only for commercial purposes. The while many people are installing coal furnaces and stoves so they may be prepared for the worst.

### A HARD TIMES BALL

A Hard Times Ball will be held in the Community Theatre on the evening of November 21st. The Harmony Five Orchestra will furnish the music.

### Canadian Bank Clearings.

That Canada is well able to support the Victory Loan is clearly shown by the Canadian bank clearings for the current year. They indicate that the year's total will exceed \$15,000,000,000 compared with \$13,775,000,000 in 1918. And the year's total clearings should be three times those of 1909.

### VULCAN LOCALS.

Coal at Terwilliger Grain Co., in lump \$8.00; nut \$5.00.

There is about three feet of snow on the level in the foothill country.

TOYS—Toys—Christmas Toys, Edison Phonographs, Discs, and Cylinder Records at Shimps.

BORN—To Mr. and Mrs. David McClement, of n.w. of Vulcan, on Oct. 30th, a daughter.

Remember the Big Dance at the I.O.O.F. Hall on "Armistice Day," Tuesday, Nov. 11th.

Mr. J. Lawless, of Calgary, was in town last week visiting Mr. and Mrs. J. W. H. Bond and friends.

Mass will be celebrated on Sunday next, Nov. 9th, at 9.30 a.m., by Rev. Father Rouleau, at the I.O.O.F. Hall, Vulcan.

Our cash prices on coal—lump \$8.00; nut \$5.00; briquets \$8.25; hard coal \$10.75 in lump; \$9.75 in nut.—Terwilliger Grain Co.

Come and celebrate "Armistice Day" at the Big Dance at the I.O.O.F. Hall, Vulcan, on Tuesday, Nov. 11th.

All those interested in taking part in the Sacred Cantata, entitled "Under the Palms," will please communicate with Mrs. Bell Embree.

Mr. A. S. Bowes, who has been acting manager of the Bank of Hamilton here during the absence of Mr. Trail, is leaving for his home in Kenton, Manitoba, to resume his duties there.

Church of England service will be held at the I.O.O.F. Hall on Sunday, Nov. 9th, at 11 o'clock a.m., regardless of weather conditions. It is the intention to organize a Sunday School after the service.

The local secretaries of the different U.F.A. districts of southern Alberta are in convention in Calgary at the Sandstone Hall on Tuesday and Wednesday of this week. Mr. Charters, of Vulcan, is in attendance.

Mr. Andrew Jacobson, deceased, left six sons in this district instead of five, as was incorrectly reported in this paper two weeks ago. The son Martin's name was omitted. Eight grandchildren also survive him. Two of the sons are married, John and Olie.

Mr. A. M. Trail returned to Vulcan on Wednesday to take up his duties again as manager of the Bank of Hamilton. Mr. Trail has been in Calgary for the past three months relieving the manager of the bank there whose duties also were the superintending of the bank's branches in the province. His many friends will be pleased to see him back.

The council of the M. D. of Marquis held their regular monthly meeting at the Lake McGregor school on Saturday last and considerable business was in hand for attention, but a discussion was precipitated regarding the recommendations for a pool license at Milo, which took up most of the time, and the meeting was necessarily adjourned to meet again in two weeks in order to complete the business in hand.

Mr. J. T. M. Hughes, Vulcan's new veterinary surgeon, has been very busy since locating here, due no doubt to the reasonableness of his charges and the interest he displays in his work. He is here for the benefit of the farmers, and all those needing any advice are welcome to call and consult him. He is interested in the improvement of stock in this locality and is ready at all times to give his advice and aid in this regard, and farmers should not hesitate to see him regarding their cattle. They will find the doctor a good person to meet and one full of practical information in his line.

### CANADA NEEDS MONEY

War Expenditures Still to Be Met From Proceeds of Victory Loan.

The war is over and won; but Canada's main expenditures for war will not be complete until well on into 1920. The \$610,000,000 raised last year has all been spent, \$400,000,000 having been largely devoted to soldiers—to maintaining them, bringing them home, providing the necessary medical services, training them. Most of the balance of the loan was lent to Great Britain to enable her to buy our surplus products. And money is still necessary—for soldiers, for providing markets, for our surplus products, for the needs of reconstruction. And that is why another Victory Loan is necessary. Canada still needs money, and needs it badly.

## Curling Club

List of Names Comprising the 12 Rinks |

Ten rinks were determined upon by the Curling Club at its meeting last week, and the different "skips" went forward making up their teams according to this schedule, but it was later found that there were more players interested in the game in Vulcan than was previously figured on and the number of rinks was enlarged to twelve. This necessitated another scramble for team members and Mr. Charters and Mr. Jones were added to the "skip" lists. The teams as they now are made up are as follows:

1. J. Wolfe, Buchart, S. A. Brown, Long. 2. Whitcher, Denby, Walker, Gordon. 3. Hall, Dailon, Robson, Marcellus. 4. Charters, R. Elves, Allen, G. McKay. 5. Spooner, Rolston, Barker, Berringer. 6. Flood, Trail, Wingler, Buck. 7. Jones, Rutherford, Thompson, Geddes. 8. Le Bow, Ferguson, Collier, Marshall. 9. Anderson, Carson, Stack, Craig. 10. Torgerson, McMillan, Hawes, Dickenson. 11. Grant, F. Elves, Colwell, Cunningham. 12. Reeves, McQueen, McIntyre, Hughes.

Considerable interest is being displayed and much speculation manifested as to the possible outcome of the play for the coming season. No definite predictions as to the winners have as yet been heard, but some of the "skips" are quite positive that they will easily clean up the bunch. Torgerson feels strong and looks pretty good. He has no fear of the results. He can tell you where the flag will fly.

## General Hospital

New Hospital Opened For the Care of General Patients

Jean Morton, better known as "Nurse" Morton, has leased the McQueen residence on Atlantic Ave. and has fitted the same up for use as a general hospital to be known as the Vulcan General Hospital. The same will be open for the accommodation of all medical, surgical and obstetrical cases, and will serve a much-needed want in the community. Nurse Morton is a graduate of the Rhode Island Hospital and the Providence Lying-In Hospital, and is thereby admirably equipped to undertake the management of such an institution. Nurse Morton is to be commended for her progressiveness and her foresightedness in noting the necessity of such an institution in our midst, and we predict for her a success from the start. A hospital is considered, more or less, as a public institution and we hope that the citizens of the town and surrounding country will lend their every help to Mrs. Morton in her endeavors to make the same a success and a credit to the district. Many little acts of kindness and thoughtfulness can be bestowed on patients there, who are at times strangers in our midst and whose sufferings are greatly alleviated by small tokens of kindness presented by the citizens. The institution should be appreciated.

### VICTORY LOAN

The local committee of the Victory Loan have been active of late in soliciting subscriptions and as expected have met with fair success. The inclination of the people is towards subscriptions but the means are more lacking than heretofore. The subscriptions are smaller than usual but will equal in number that of former years. Messrs. Bouchart and Naismith hold the record so far for early subscriptions, having succeeded in obtaining 27 within the first 24 hours. The total amount was smaller than expected and the total up to the present time is \$14,300. The returns from the Champion country are disappointing, and not much interest is being manifested there.

To make the Victory Loan a success is a national obligation. It may be that you are the deciding factor.

If you are concerned about the future welfare of Canada, buy a Victory Bond and make it a sure thing.

### THANKS

The Vulcan Band Boys wish to express their sincere thanks and appreciation to the ladies and merchants who so kindly assisted them in making their masquerade ball such a grand success.

## Masquerade Ball

A Grand Success Socially and Financially

The Band Boys Masquerade Ball took place on Friday evening last, Halloween night, and was a grand success in every particular. The hall was prettily decorated to suit the occasion. The lights were subdued and covered and the walls were decorated with a profusion of black cat, pumpkin and other grotesque representations, while green and red stringers stretched from different parts of the hall. Jack-o-lanterns were used in the basement dining hall and on the whole the hall presented a spectacular appearance. About three hundred and fifty persons were present and the music was finely rendered by the Harmony Five Orchestra. The costumes were the best ever seen in these parts and consisted of representations of every conceivable character, from the ludicrous to the severe. Some very good ones were seen in the fancy as well as some very original and comic, so that the members of the judging committee had difficulty in making the awards. The floor was barrel from other than costumed persons until twelve o'clock, after which time everybody was welcome to dance. A supper was served in the dining hall at twelve o'clock. "Willie from Arkansas" was an amusing character throughout the evening and he'd to entertain the crowd by his amusing antics as was also the "polar bear" and a bunch of "tramps". The prizes were awarded as follows: Best Dressed Lady, 1st, Mrs. Roy Walker; 2nd, Miss Smith, as the Quaker. Best Dressed Gentleman, 1st, Mr. Geddes, as the Hussar; 2nd, Mr. Clark, as the Soldier. Best Gentleman Comic, 1st, "Willie from Arkansas"; 2nd, The "Rube". Best Lady's Original Costume, 1st, Miss Cole; 2nd, Miss Boose, "The Egyptian". Best Gentleman Original Costume, 1st, Mr. Simington, as the "Blind Man"; 2nd, The Egyptian. Best Lady's Comic, Miss Ebbsworth. Best Original Couple, Mr. and Mrs. Jones, "The Indians". The Special Prize for Best Dressed Couple was awarded to Mr. and Mrs. Denby. The ball continued until long after 2 o'clock and was considered by all as one of the most successful ever given in the district. It was full of interest and amusement throughout and everybody seemed to enjoy themselves thoroughly. A nice little surplus was realized by the Vulcan Band, for whose benefit the same was given. Everybody satisfied and pleased. What more can we want?

## The Vulcan Band

Makes Its First Public Appearance

The Vulcan Band made its first public appearance on Friday evening, pre-facing their Masquerade Ball given at the I.O.O.F. Hall on that evening, and made a very creditable showing for the short time they have been in existence. The boys formed at the Hall about eight o'clock and marched down to the corner where they paraded into circle around the light and rendered two pieces of music. Both went off without a hitch and were well played and as enthusiastically received by the onlookers. The weather was very cold and the concert was cut shorter than was anticipated. The band has a few more pieces which they can play in a satisfactory manner and some fine evening may find them again on the corner when a variety of their selections will be rendered. The receipts from their dance were very satisfactory and will help to provide for the further equipment and progress of the Band.

### HARVEY SCHOOL

In a communication with Mr. McDonald, one of the trustees of the Harvey School, which was lately destroyed by fire, it was learned that at a meeting of the trustees it was determined to rebuild the school as soon as arrangements can be completed. It is the intention to make it larger and better than it was before. In the meantime some few of the pupils are seeking their education in neighboring districts, while a number of them are not attending school at all. It is not at present known when the new structure will be ready for occupancy.

**THE COCHRANE FIGHT**

The editorial press of the province seems to be opposed to the stand taken by the U.F.A. in the Cochrane coming election, and give generally as their reasons for such the fallacy of overthrowing a candidate, allied and favorable to the farmers' interests, for another similarly inclined but more of their class element. It is this "class spirit" which seems to be the objectionable feature of which they complain, and which they profess should not have place in the spirit of democracy, to which this new party is wedded, and suggest that it would be for the best future interests of the party if their candidate should be defeated and thus at once publicly denounce any seeming tendency towards such principles. We can see no objections to any party naming its own candidates for election to any office, notwithstanding the fact that the present incumbent is without serious faults and is favorably known. We have not often heard of different tactics being practised by any of the old line political parties, and, in fact, such principles have been and are followed by any of the recognized parties. It is one of those strict party privileges for which a party is formed, and upon which its strength is determined. There can be no half-heartedness in the political fight for supremacy, and the election of every single candidate on any particular party's ballot is its aim and ambition. It is hardly their desires to elect candidates of opposing factions. We again do not believe that the nomination of Mr. Moore was made because of any underlying "class intentions" so to speak, but because he was the man of their choice and was a member of their party, and was consequently a fit subject for the incumbency. We must not forget that there is in the politics of the province still a great many men who play the game of "politics for politics sake only" and whose party is always above individuality, and this symptom is found in a lesser degree among many of our people who are not actively interested in the game. If the U.F.A. candidates are elected, they know where they stand and are accountable to the masses for their actions. Not so if they support a candidate of another party. Play the game and play it hard and entirely for the purposes for which you were organized. Then if successful you will be admired and congratulated and the glory will not have to be shared with others.

**DEPOSITS VS. PRICES**

A large increase in bank deposits might reasonably be looked for after the recent period of unprecedented prosperity, during which our industries were operated under exceptional war conditions, and wages and prices were governed more by the exigencies of war than by normal commercial considerations. To meet these exigencies credits were perforce created and an immediate expansion of deposits resulted. The advance in prices did not increase the cost of living sufficiently to check extravagance in personal expenditures, nor did it obstruct the steady increase in deposits, which reached the large total of \$1,781,000,000 at the end of last August, being equal to \$221 per capita as compared with \$128 per capita in 1913, the year prior to the war. In the intervening period \$1,400,000,000 in government loans were taken up. The public, therefore, have apparently been able to meet all calls made upon them by the government, to set aside large savings and, with the exception of the salaried classes and those with fixed incomes, to live as well as, if not more generously than, they did in the period immediately prior to the war.

An interesting fact disclosed at the sittings of the Board of Commerce now investigating prices was that whereas in 1913 73% of the woolen goods used were bought in England, about 60% are now bought in Canada. Expert witnesses also testified that Canada made as good woolen goods as England and at cheaper prices.

The bank statement for August showed a further increase in deposits in Canada during the month of \$21,600,000, while those abroad declined \$56,280,000.

**PRICES AND THE EXPORT DEMAND**

It is difficult to find sound reasons for the general belief that prices have reached their highest point from which during the next few months there will be a gradual decline. Enquiry reveals the fact that in all parts of Canada the demand for goods is quite as great as at any time since a scarcity was caused by the pressure to obtain war supplies. To meet this domestic demand there is no evidence of an increased volume of production. For lack of labor, part of the machinery of many industries remains idle, as shown by the reports for August of the various offices of the Employment Service of Canada which were able to fill only 73 per cent. of the vacancies reported. During the same period a loss of 316,187 working days resulted through strikes. Under these circumstances it must be due to the higher efficiency of labor, plant and management that so large a volume of exports has been maintained. To the demands from abroad we may safely attribute the high prices Canadian producers obtain for their goods, and while these demands for our chief products continue, it would not appear that any substantial recession in prices is imminent. That consumers will clamour for lower prices is quite natural, but the remedy lies in the greater production of goods for the satisfaction of public needs. Price-fixing and the artificial restriction of profits will tend to discourage rather than to enhance production, with the inevitable result that prices will be forced to higher levels.

**ENGLAND'S WAR GAIN**

In addition to a proposed refund of half a billion by the American Treasury, England has gained materially by the war. A London weekly, Common Sense, edited by the former editor of The Economist, shows the increased area now controlled or about to be controlled by England, amounting, in all, to 1,418,029 square miles. Deducting German S. W. Africa, for which the Union of South Africa hold the mandate, and Samoa and other places, over which Australia is the mandatory power, the Imperial Government of Great Britain has succeeded in acquiring additional territory covering a million square miles. Where does Canada come in? Practical patriotism has gained for John Bull the advantages which only organized patriotism is capable of acquiring. Canada is struggling under a debt of two billions, without any prospect of easement by indemnities, because patriotism in this country is Imperialistic, and not concerned about the welfare of Canada.

One of the leaders of the farmers' movement in Ontario, Mr. W. C. Good, comes out with the sensible suggestion that with the membership of the legislature split into various groups, the opportunity is a good one for doing away with the party system in provincial affairs. There is no reason why, in provincial politics, we should have the same party divisions as in the politics of the Dominion, and it would be a great reform if a complete divorce between the two could be brought about.

Several cases in the Calgary police court are now pending against the railway companies for undue delay in handling live stock in transit, and the facts relating to the whole mixup will probably come to light at the hearing which will no doubt result in some remedy against the holding of stock in cars from 12 to 14 hours, right in the yards, after in some cases an unnecessary delay at points near Calgary.

Three men appeared before Police Magistrate Saunders at Calgary last Friday as deserters from His Majesty's forces of Canada. The men took their absence without leave during the summer of 1918 and were only apprehended last summer. The three men were fined \$1,000 each or imprisonment for two years.

Believing that the efficiency of mirth equals that of medicine, the school teacher at Hughenden, Alberta, is offering a prize for the boy or girl who can have the heartiest laugh during the week of the closing school term.

Seventeen hundred soldier farmers are now settled on farm lands in B.C. and their efforts are being watched with interest. The government advanced \$5,000,000 to give them a start and it is to be hoped success will attend their efforts.

For general purposes Alberta coal gives better results than the imported coal is the opinion of J. A. Kelso, provincial analyst, in evidence given to the Coal Commission recently at Edmonton. We produce steam coal superior in heat value to the coal imported from the United States.

## COMMUNICATION

Editor Vulcan Advocate,  
Dear Sir:

It is a wonder the U. F. A., if it values its present prestige, obtained from the political victory in Ontario, and the chances for political domination in this province gained by virtue of those same successes, would not suppress such rabid, maudlin outbursts as appeared in your issue of last week under the caption, "Communication" and signed "Subscriber."

People with the bad taste of impressing other people with their infallibility in the matter of conclusive judgment by the old "I told you so" phrase are scarcely worth attention, but in the case of this particular "communicator" it appears some sort of reply should be worded, if only to prevent another outburst along the same line.

Now the person in question begins his 'communique' by stating that the results in the Ontario elections were no surprise to him. That statement exposes either a bald ignorance of the political situation in Ontario or an ability to divest the future of mystery in a manner to make palm readers and fortune tellers 'furl their tents and silently steal away.' Had anyone been able to foretell the result of those elections, it most certainly would have been the leaders of the U. F. O., yet they were so amazed and stupefied by their unexpected victory that for twenty-four hours none of them could utter a coherent statement and many of them are still wondering how it happened. Yet here we have a local Socrates who claims it was no surprise to him. Good! Maybe he can tell us what kind of a harvest we'll have next year. That kind of information might do the community some good, and he'll have earned the right, if his prophecy comes true, to use that phrase "I told you so."

Further along he says the farmers "are just as honest a bunch as any other class of people." Lacking the statistics on the honesty of classes I am unable to contradict the statement. But why should such a statement be necessary? No one has questioned the honesty of the farmers and as far as government is concerned they have yet to make history and it remains to be seen whether they are proof against the graft game. There is no authority for the rule but it occurs to me that as far as classes are concerned they all have their weaknesses where easy money is obtainable. Anyhow we have little faith in the man who chronicles his honesty from the house-tops in a loud voice. Most of us would sooner trust the man who allows his fellows to find him honest.

Farther on "Subscriber" trusts "they have elected good British subjects and I take objection to that sentence. In fact the whole letter is objectionable but I deal only with the phrases particularly so. Why wouldn't good Canadian citizens do as well or better than British subjects? We discarded in the baptismal of democracy the word "subject" because it was freighted with miseries and narrow-mindedness that have disappeared from our existence and none but the narrow-visioned hold to past misery.

"Subscriber" howls about the Federal Government giving the Western Provinces a dirty deal, of one class exploiting another, and in the same breath hopes that the next elections will put enough farmers in the Governmental machine to insure the farmers a square deal. I am at a loss to know his definition of a "square deal", but take it for granted that he means certain legislation favorable to the farming class would be introduced and that everything relating to the agricultural element would be well protected, with an edge as far as advantage was concerned. He does not take into consideration the fact that such procedure would be nothing but reversing the classes and would in no way alleviate the prevailing unjust system. Favoring one class must necessarily mean slighting another and an advantage to one places another at a disadvantage. As far as government by any one class is concerned we have had illuminating and sufficient example furnished us to be able to form definite ideas as to its practicability. In a current phrase, "It's bum business". No class, when it gets a grip on power, can retain the altruistic principles formulated by the injustices prevalent in the domination of another class. Sooner or later the class in power uses its privileges to express partiality to its own devices and somebody has to suffer. Partisanism has been the stumbling block to good government since politics originated and it is high time some one realized this fact. But as long as such people as subscriber are permitted to publicly display principles that are nothing but pure partisanism and a gloating over the downfall of one class and ascension of another, which I am loathe

## Make Your Dreams Come True

Fond parents dream of a bright future for their children.

They dream of the literary and musical education they are going to give their daughter, and of the high position she will take in her sphere of womanhood.

They dream of the education they are going to give their son and vision him some day as a clergyman, a famous lawyer, an eminent physician, a prominent financier, or a captain of industry.

But to make these dreams come true

—or even partly true—requires foresight, planning and money.

To provide the money what plan so wise as to buy Victory Bonds for each child?

Thousands of parents bought Victory Bonds for their children in 1917 and 1918.

Surely you will be among the thousands of loving parents who will buy Victory Bonds for their children—this year?

Victory Bonds may be bought on instalments at such easy terms that every parent who so wishes may buy

## Buy Victory Bonds For Your Children

Issued by Canada's Victory Loan Committee in co-operation with the Minister of Finance of the Dominion of Canada.

## LAST MINUTE NEWS ITEMS

Three Republican Governors were elected recently in Massachusetts, New Jersey and Kentucky by large majorities.

Coal miners in the States who are on strike say they will be out for about one month. Meanwhile all will suffer.

The Grand Trunk bill was finally passed in the House of Commons by a majority of 41. It will soon be up to the Senate to vote.

The U. F. A. of Medicine Hat will contest the Federal Riding at next election.

Calgary citizens have purchased about \$3,000,000 of Victory Bonds since the opening of the campaign.

Great War Veterans throughout the Dominion intimate they are behind the soldiers gratuity scheme and they express regret at the attitude of the Dominion Government on the question and they promise the creation of another political party unless they are given consideration.

The Royal Commission appointed to enquire into the charges preferred against the Minister of Justice, Mr. Doherty, in connection with the Guelph Novitiate and the raid made upon that institution by an indiscreet officer of the military forces, has turned out as we expected. The whole thing was a bigoted, narrow attempt to bring trouble to this institution by a set of men who have no sense of right or justice when religion is concerned.

To believe is the actuating principle of the United Farmers, we will have a hard time obliterating the evils in a democratic government.

The proceeds of the present Victory Loan are to be applied to the care of the dependents of those who gave their lives, the care of those who are maimed or incapacitated and of their dependents, the payment of gratuities already granted to those who have

fortunately returned, as well as other purposes of reconstruction, including credits for financing foreign trade. The need of funds for such purposes will appeal as strongly to the people's sense of duty as did the call for means with which to carry on the war.

### Care for a Ride Tonight?

SHAKE the dusty cobwebs from your brain. Enjoy the exhilarating freshness of the country. Take an evening's spin to the bathing beach,—to the trout pool.

Alberta lambs shipped recently to  
Chicago topped the market and Chi-  
cago packers commented forcibly on  
the high quality of Alberta product.  
The lambs scaled an average of 73  
pounds after ten days on the road,  
and they arrived in excellent condi-  
tion despite the long haul.

There will be a meeting of school  
trustees of the Province of Alberta  
held in Calgary on November 11 and  
12. This will be the first meeting  
held since the outbreak of war. There  
should be a large attendance. Dr.  
Tory of University of Alberta and  
others will address the trustees.

### PROVINCIAL NEWS ITEMS

The Imperial Oil Co. of Lethbridge  
was one of the early subscribers to  
the Victory Loan taking \$50,000.00  
worth of the bonds.

Last week beef prices held up  
pretty well at Calgary, choice steers  
going as high as \$11.50 with the bulk  
selling at \$10.50 and \$11.00 per cwt.

When the government took control  
of the Grand Trunk lines, they also  
secured control of thirty-three ex-  
press companies in the United States.

There is talk of Mr. Justice Duff re-  
tiring from the bench of the supreme  
court and resuming his legal practice.  
The name of Hon. Arthur Sifton is  
referred to at Ottawa as his successor.

The farmers of British Columbia  
are now lining up for the next elec-  
tion when they promise to repeat in  
their province what the farmers did  
in Ontario.

A farm near Olds, Alberta, consist-  
ing of 15,000 acres, was sold last week  
to a U.S. man who will cultivate every  
acre next year. Production is what  
we want in this country.

At an auction sale held in Calgary  
last week 106 animals brought \$15-  
\$66, making an average of \$146. In  
one instance \$400 was paid for one  
cow, sheep averaged \$18 and swine  
\$44.

In the opinion of General Pershing  
the United States does not require an  
army of 500,000 soldiers. With the  
passing of the Peace Treaty his opin-  
ion is that an army of 250,000 men  
will suffice.

There were 500 teachers in atten-  
dance at the Annual Teachers' Con-  
vention at Calgary last week. The  
value of such conventions to the teach-  
ing profession is enormous and should  
result in much good.

Eighteen of the cheques tendered in  
payment of tickets for the citizens'  
ball at which the Prince of Wales was  
present were returned the following  
day from the banks marked "N.S.F."  
Terrible thing, is it not?

The Winnipeg Free Press is author-  
ity for the statement that Mr. Mother-  
well came out against the farmer can-  
didate at the request of McKenzie  
King, the Liberal leader. To that end  
he sent up three leading Liberals from  
Ottawa to assist Motherwell. The lat-  
ter was badly defeated and there is  
now a hot controversy as to whether  
Mr. King urged opposition or not to  
the farmers. Even if he did we can-  
not see anything wrong with that!

In connection with a statement  
made by Mrs. L. C. McKinney at a  
meeting held in Cochrane riding re-  
cently, that Sir Henry Drayton's op-  
ponent in Kingston, Ont., had been in-  
duced to withdraw from the contest  
by promises of public works, Sir  
Henry while in Calgary gave an em-  
phatic denial to the statement. The  
farmer candidate withdrew because  
he could get no support, and then fol-  
lowed the rumor which he declared  
was a deliberate misstatement of  
facts.

Henry Ford's latest project is a  
practical step towards the solution of  
the rural depopulation problem. Ac-  
companied by Thomas A. Edison and  
John Burroughs, Mr. Ford located a  
site at Green Island, near Troy, for  
his new winter enterprise. He pro-  
poses to utilize the water power in the  
locality and erect a plant in which  
ten thousand workers will be employ-  
ed in the manufacture of tractors.  
He proposes to operate the plant only  
at the season of the year when there  
is no work to do on the farms. He  
expects a great influx of workers  
from the farms during the winter.  
They will make Ford cars as well as  
Ford tractors. He believes he can  
demonstrate the possibility of operat-  
ing a moderately sized farm machin-  
ery plant over a maximum period of  
twenty working days a year. In ad-  
dition to solving the labor problem, he  
hopes to accomplish something bigger,  
the attraction of labor from the con-  
gested cities to the farm, where the  
worker may continue the advantages  
of farming and rural life with the  
boon of steady employment and good  
wages when not engaged on the land.

### STRIKE UNJUSTIFIABLE

President Wilson, with the support  
of his entire cabinet, has called upon  
the coal miners of the entire nation,  
both union officers and members, to  
rescind the strike order effective Nov.  
1st. He holds that the impending  
strike is not only unjustifiable but un-  
lawful and stated that "the law will  
be enforced and means will be found  
to protect the interests of the nation  
in any emergency that may arise out  
of this unhappy business."

Must Subscribe More

Dividing the people of Canada into  
three classes—the comparatively  
poor, the moderately wealthy, and  
the very wealthy—it would seem  
that if contributions to the Victory  
Loans constitute service to the na-  
tion, the moderately wealthy class is  
hardly doing its share. Of the money  
subscribed to the Victory Loan 1915,  
two hundred and seventy-one million  
dollars were in bonds of \$5.00  
and under, ninety-four millions in  
bonds of between \$5.00 and \$25.00,  
and three hundred and one million  
in bonds of \$25.00 and over.

### GENERAL NEWS

All those who propose attending the  
show should communicate as early as  
possible with Mr. Galbraith when ar-  
rangements will be made for their  
accommodation.

According to Alex. Galbraith, of  
Edmonton, superintendent of fairs and  
institutes, the next International live  
stock show will be held in Chicago,  
November 29 to December 6, and is  
expected to exceed any previous ex-  
hibition both in numbers and quality  
of pedigree stock.

This show has for many years been  
regarded as the greatest and most in-  
teresting collection of high-class live  
stock in the world, so that a visit by  
any person interested in any kind of  
stock—horses, cattle, sheep, or hogs—is  
not only a pleasure and a privilege,  
but is really a liberal education.

In order to encourage as many far-  
mers and stockmen of Alberta as pos-  
sible to attend the forthcoming show,  
and also to enjoy the trip going and  
returning, arrangements are to be  
made for the exclusive use of one or  
more standard sleeping cars on the  
C.P.R. train leaving Calgary on Thurs-  
day, November 27.

### PICTURE PLEASED PRINCE

Winnipeg, Oct. 14, 1919.  
Lew Williams, Mayor,  
High River.

My dear Mr. Williams: Mr. George  
Lane has brought with him today the  
communication signed by you, Major  
Walker and Mr. Watt, asking His  
Royal Highness to accept the picture  
"When Law Dulls the Edge of  
Chance" by C. M. Russell.

His Royal Highness desires me to  
ask you to convey to the citizens of  
High River his thanks for their very  
kind present, which he has much plea-  
sure in accepting. The presentation  
from the citizens is, if possible, all the  
more pleasing to him on account of  
the fact that he has just decided to  
purchase the ranch lately owned by  
Mr. Bedingfield which he realizes is  
in the High River district.

Believe me,  
Yours very sincerely,  
Lionel Halsey.  
Rear Admiral, Chief of Staff to  
H. R. H., the Prince of Wales.

If you appreciate a good invest-  
ment you will buy a Victory Bond.

You deceive no one but yourself  
when you say you can't afford a Vic-  
tory Bond.

### WEATHER AND STOCK CONDITIONS

The past week has been a succession of blizzards, snow storms and cold spells without much let-up and is emphasizing the statement that October, 1919, will go down in history as one of the most severe experienced in this country in a long number of years. On Wednesday last a blizzard set in which blocked the trails in all directions and forestalled auto travel entirely. The following Saturday saw a repetition of this when another big fall of snow was experienced followed with cold weather. There is more snow on the ground at the present time than has been witnessed all last winter with perhaps one or two exceptions. The farmers are not bewailing the prospective moisture occasioned, but the feed situation in consequence is becoming to look serious. A couple of months of good grazing was yet to be expected which would conserve the feed supply and which was thought to be sufficient to carry over the coming winter, but a continuation of present weather conditions will necessitate early feeding and a shortening of the supply. In fact, feeding is now generally going on, but it is hoped to be for a temporary time only, as a return to normal times is expected. If the winter is now in to remain a serious proposition in the feed situation is facing the stockmen. The month of October, which is usually looked upon as a good month for the improvement of cattle, has been a serious disappointment in this respect to ranchers. They have not taken on the weight and improved conditions generally shown at this time, but have, on the contrary, in some cases, gone back, as a result of the severe weather conditions. We have heard of one lot of 700 head and several smaller lots which have "gone back" in October instead of improving, all of which emphasizes the serious conditions confronting the district in this particular. There will be a shortage of feed, with a consequent raise in price, detrimental to this interest, if weather conditions do not soon return to normal.

### GOING INTO PICTURES

Mr. Phil Weinard is going to be a movie actor. He has secured a splendid contract with the Calgary Photo-plays Company, and left Tuesday night for Spokane, where the company is to be assembled for the screen production of the James Oliver Curwood story, "The Yellowback." Mr. Weinard will, in this production, be cast as the Indian medicine man, a part which we know he will portray to perfection. His long residence in the West has given him a fine knowledge of every characteristic of the Indian, and he has acquired their language. If anybody can give a real portrayal of the Indian, that man is Phil Weinard, and we do not doubt his success in this picture. Mr. Weinard also possesses the advantage of stage experience, for in the days gone by he was well known on the dramatic and minstrel stage as Phil West. This picture will be the second to be produced by the Calgary company, and to follow their great success, "The Man from Up in God's Country."

### TRAINLOAD OF CATTLE

Stockmen throughout Western Canada will await with much interest the result of the sale of a trainload of beef cattle loaded at Cayley last week by some of our large stockmen. These cattle were fed in the summer range in the foothill country and when entrained were in prime condition, but the long journey will no doubt cause a big depreciation in weight. However, the depreciation in weight will no doubt be made up by the increase in price which obtains in Chicago, as against that which prevails at Calgary or Winnipeg. In the bunch shipped were about 1,000 head, made up by Messrs. Dick Bros., 400 head; Brazil & Merriam, 85 head; W. H. Monkman, 150 head; John Blake, 100 head; Bar U, 200 head; Fulton Thomson, 60 head, and other cattle from smaller stockmen, which made up the trainload. Messrs. Ward and Archie Dick accompanied the cattle and will look after the selling of same.

Mayor Marshall of Calgary has announced he will stand for re-election in the December elections.

### GLASGOW HERALD'S ACCOUNT

Mr. Jack Thompson, of Vulcan, who is a constant reader of the Glasgow Herald, gave us the following clipping from that paper which gives a splendid description of the Prince of Wales' visit to the Bar U ranch. It was written by their own correspondent who accompanied the Royal party:

In this phase of his tour the Prince is experiencing to the full the varied life of the West. Yesterday he was a cattleman, not a dilettante playing with experience, but the real thing, with much of the cattleman's excitement and all of his hard work. On Monday evening he went out by train to the little "cow town" of High River, a place where vast agricultural stretches of prairie meet the rolling lands of the cattle kings that extend to the foothills of the sharp, bare Rockies. In the old days cow-punchers in chaps and steeple hats used to ride into High River hitting up the dust in true wild and woolly fashion. Now it is a sedate town, where you can dance jazz in the evening with the brightest and most modern of girls. From High River the Prince went out to a big ranch by a trail which the chauffeur, who is fond of his car, calls mournfully a "heller road." It isn't always the traffic hammered strip of dirt which makes in summer the good, fast road of Canada. It is usually two deep ruts in a sea of grass along which the car runs as though on rails and it generally runs as if it were on rails at a pace that sets timid Europeans wondering whether his accident policy is fully paid up.

The ranch the Prince was visiting was owned by a Mr. Lane and is one of the biggest and most vigorous of its kind. It is a typical cattle king's home—a rough but comfortable house situated in the heart of broad and rolling plains with the harsh white crags of the foothills looming beyond. The Prince was entertained here and shown how the wild life can be made amenable. On Tuesday he experienced the arduous of the calling. He mounted a broncho and, with his host and other cowboys, helped to round up some 2,000 head of cattle for the business of branding. It is no task for the idler or slacker, this. Most of the cattle were cows with calves or self-determined steers less than a year old not yet branded and consequently independent. Most of them in fact had seen little or nothing of man in their life of lonely pasturing over the wide plain. Riding at a gallop and amid a whirl of movement and dust the Prince helped to bunch the mass of hoofs and horns into a compact circle, and then joined with the others in riding into the nervous herd to separate the calves from the mothers and the unbranded steers from those already marked. Calves and steers were then roped and dragged to the corral, where they were flung and the bar U of the ranch branded upon their flanks with long irons taken from the fire in the enclosure. The Prince did not spare himself and thoroughly enjoyed the hard work and such is his energy that after spending so strenuous a morning he went off in the afternoon for a long tramp in which he shot part-ridges until the time to return to Calgary. His pleasure in his experience was summed up in the terse comment "some ranch" which he put against his signature in the visitors' book. His energetic day was not ended by any means, for after a swift ride back over the trails in the car he caught a train back to Calgary and danced to the small hours at a brilliant ball given by the veterans in the Armoury, which had been exquisitely decorated for him.

### GONE TO EDMONTON

Dr. P. L. Backus, who took over the practice of Dr. Stanley in August last, has been offered a position in the University of Alberta at Edmonton, on the medical faculty in the department of Physiology and Biochemistry, and has accepted the same. He left High River this week to take up his new duties and stated that he regrets leaving High River, as his practice here has been more than he expected and his social relations were exceptionally pleasant. The new opening gives him a chance to specialize along lines in which he is particularly interested, and he felt that it was his duty to himself to take advantage of the offer. The Doctor has made many friends while here, who will in turn regret his departure as he was very efficient in his profession and was socially becoming very popular. The good wishes of the community go with him and predict his successful future. His practice has been purchased by Capt. York Blayney, of Edmonton, who has lately returned from overseas, and who arrived in High River on Friday last to take over the business, which will be continued uninterrupted as heretofore at the old Dr. Stanley residence.

### LUCAS WINS MORE GRAIN PRIZES

At the International Soil Products Exposition in Kansas City this year, John W. Lucas, of Cayley, won second prize for white oats, first for brome grass seed, first for peck of oats, first for peck of barley, and first for peck of rye. And this in spite of the dry year experienced by all farmers in this section.

Mr. Lucas first exhibited grain in 1914, and since that time has been a steady exhibitor at provincial and international expositions. Besides many diplomas and premiums at provincial fairs for exhibits of grains and grasses, Mr. Lucas has won the first prize for white oats for five consecutive years at the Alberta annual Seed Fair. At the International Soil Products Exposition at El Paso, Texas, in 1916, Mr. Lucas was awarded sweepstakes for oats, and second prize for barley in the open classes as well as in the dry farming section. Again, at Peoria, Ill., in 1917, though the exposition was earlier than usual, he was awarded third prize for white oats, barley and field peas, in the open classes, and second for oats, first for rye, and first for brome grass in the dry farming section; while in 1918 he obtained second prize for field peas and third for brome grass seed.

NOTICE TO CREDITORS AND  
CLAIMANTS

Notice is hereby given pursuant to an order made as provided for by section 15 of the Municipal Co-Operative Hail Insurance Act, that all persons having claims against the Hail Insurance District established under the provisions of section 328 of the Rural Municipality Act, and carrying on the business of Municipal Hail Insurance during the years 1914 to 1918 inclusive, are required to deliver or send to the undersigned Administrator, on or before the 20th day of November 1919, a full statement of their claims duly verified and any securities held by them, and that after the said 20th of November 1919, I will distribute the assets of the said Hail Insurance District among the parties entitled thereto having regard only to the claims of which I shall have received notice.

E. H. Malcolm,  
Administrator,  
21 Canada Life Bldg.  
Calgary, Alta.

NOTICE  
TO CREDITORS AND CLAIMANTS

in the Estate of  
DOUGALD FERGUSON  
Late of Vulcan, Alberta, Marine Engineer, Deceased.

Notice is hereby given that all persons having claims on the estate of the said Dougald Ferguson, who died on the 15th August, 1919, are required to file with the undersigned by the 1st December, 1919, a full statement duly verified, of their claims and of any securities held by them, and that after that date the Administrator of the estate of the deceased will distribute the Estate among the parties entitled thereto, having regard only to the claims of which notice has been so filed or brought to his knowledge. Dated this 24th October, 1919.

J. A. Valiquette,  
Solicitor for the Administrator

Calgary, Alta.  
Oct. 29x3

## A NEW USE FOR THE AIRPLANE

The Dept. of Agriculture at Ottawa has discovered a new use for the airplane. The Entomological Branch is investigating the mosquito in the Lower Fraser Valley in British Columbia. By using the airplane, the country can be surveyed in order to map out the swampy areas and other breeding places that are readily located in photographs taken from overhead, according to a statement by Dr. C. Gordon Hewitt, Dominion Entomologist, that appears in the October Agricultural Gazette. The airplane was used in making a comprehensive survey of the complicated water system of the Fraser River and the adjacent bodies of permanent and temporary water in that district. A flight reported by Dr. Hewitt has demonstrated the possibility of using this machine also for making surveys of timber that is being killed or has already been destroyed by various insects. Its use, it is believed, will help very greatly in the entomological work with various insects being carried on by the Federal Dept. of Agriculture.

The International Editorial Association, the largest organization of newspaper men in the world, made up of American and Canadian journalists, is having erected at Vanderhoof, B. C., a building which will become the Canadian national home of the association. The building will be modern and commodious and a part of it will be used as an hotel for the travelling public.

**Victory Loan 1919 is Bridge  
Between War and Peace.**

Agricultural and Industrial Prosperity of Canada Depends on Success of the Loan.

Why is it necessary to have another Victory Loan? Have you heard this query? Or have you asked it?

The Victory Loan of this year stands out as the bridge between war and peace. The war is over. Our boys won that. The reconstruction period is dawning and we at home must win that.

Much of the money that Canada is asking for will be needed to clean up the war debt. The expenses of demobilization were heavy, and there is still much of it unpaid. Now that our men are back, let it not be said that we repudiated the debt for bringing them back.

The sick and wounded soldiers still in hospitals are expecting that Canada will care for them and their dependents until they have been returned to health and strength. The hospital services must be maintained at full strength as long as there are returned men needing attention.

Many men through disability are unable to return to their pre-war occupations. The Department of Soldiers' Civil Re-establishment is doing a fine work in training returned soldiers in trades and professions that they can earn a living at, and is following up the training and seeing that they obtain remunerative employment. The maintaining of this branch of reconstructive service calls for much funds, and the Victory Loan will be used to pay for it as well as the other purposes.

Under the Soldiers' Land Settlement Act, enough money is lent to returned soldiers to enable them to buy and stock a farm. This money will be repaid at a low rate of interest. The soldier is thus given a chance to re-instate himself in civil life, and production is given a boost. Of the total amount of the forthcoming loan, \$24,000,000 has been apportioned to finance these soldier-farmers.

Pensions to the disabled and dependents of our glorious dead, as well as the authorized gratuities will be other items on the expense sheet. These are some of the obligations owing to the returned soldier who is now in health.

The maintaining of Canada's prosperity is an important reason why the Victory Loan should be a smashing success. The money is needed to finance the credits to overseas countries so that they may continue their trade relations with us. If Canada cannot give these credits other countries will, and then Canada will lose all that great overseas trade that has been the mainstay of our agricultural and industrial life for so long.

As an investment Victory Bonds are eminent. Paying 5 1/2 per cent., selling above par on the open market, and guaranteed by the Dominion—what further reason can you have for hesitating? The Victory Loan 1919 ought to be oversubscribed, and all right-thinking citizens will do their utmost to see that such a result is obtained.

## UNIQUE PUBLICATION

The Literary Digest, a popular New York magazine, produced its complete issue of Oct. 18th in typewritten copy, in order to overcome the labor difficulties existing in the plant. They thus did away with the typesetters. A copy of the entire magazine was typewritten, then photographed, half tone cuts made from the photographs, and impressions transferred to matrices from which the usual plates were cast to fit the cylinders of the presses. Necessity is the mother of invention.

## SCHOOL REPORT FOR OCTOBER

Grade 1A.—Arthur Cook, Barbara Howes and Fred Noyes (equal), Helen Craig, Leslie Hanson, Leo Loisel, Clarence Martin, Eva Rutten.

LOST—Dark bay horse, no white, weight about 1,000lb. Branded H T on right thigh. For reward apply to Harry Grounds, Call office, Gleichen. 29-3p

## WHERE THE MONEY GOES

In connection with the Victory Bonds of the 1919 issue we reproduce the following which seems to contain a very full explanation as to the need for all to buy to the very limit:

To retire existing obligations; to provide for soldiers' gratuities as already voted for; to pay the cost of the soldiers' land settlement; to enable Canada to grant credits necessary for the financing of this year's grain crop and thus fulfill the obligation to pay the farmer the stipulated price and assure to him the whole ultimate profit; for capital outlay upon ship-building and other national undertakings forming part of Canada's industrial reconstruction program. The entire proceeds will be spent in Canada.

Mexico City's public schools are closed because of failure of the government to pay teachers.
